Simplicity is a Divine Virtue which inspires us for Simple living and High thinking. "Simplicity is beautiful, and one who follows Spiritual Wisdom is closer to Simplicity and Truth...When we practice Simplicity based on Awakening of Self, we earn respect, co-op, love, and affection from family, friends, and Society. Simplicity adds beauty, power, values and ethos that simplifies Life's responsibilities and inspires others... Simplicity in life comes from the conscious that I am an immortal energy/soul in this mortal body and master of my Sense Organs. I accept Simplicity as it brings me closer to God and empowers me to carry out even herculean tasks with ease, comfort, co-op, love, harmony and with balance...In the present times due to body consciousness we tend to spend more to maintain our mortal coil/body which we know is perishable. Present requirement is to practice "Simple living and High thinking" and beauty our lives, society and present World into a Blissful Heaven...
