Steps Towards Green Energy: 600 Tons of Waste to Be Converted into Charcoal Daily in Varanasi

Urban Development Minister Manoj Kumar Inspects Torrefied Charcoal Plant

Manoj Kumar info@impressivetimes.com

NEW DELHI The Ministry of Urban Development is integrating waste management with national progress. Taking a step towards green energy, NTPC inaugurated a torrefied charcoal plant in Varanasi. The green coal produced in this plant is being used by NTPC for power generation and other activities. On Friday, Urban Minister, Manoj Kumar, and Urban Development Minister, Manoj Kumar, visited Varanasi to inspect the NTPC Vidyut Vyaapar Nigam Limited's torrefied charcoal plant. The facility is designed to convert 600 tons of solid waste into charcoal daily. This is India's first environmentally developed technology, which is more energy-efficient than combustion and transforms waste into high-calorific-value fuel that can be co-fired with coal. The Union Minister stated that under the vision of Prime Minister

THE MINISTRY OF URBAN DEVELOPMENT IS INTEGRATING WASTE MANAGEMENT WITH NATIONAL PROGRESS. TAKING A STEP TOWARDS GREEN ENERGY, NTPC INAUGURATED A TORREFIED CHARCOAL PLANT IN VARANASI.

In Varanasi, NTPC has developed India, the country's first green coal plant. The plant is considered a sustainable alternative to traditional coal, which contributes to pollution. Plans are underway to establish similar initiatives in other parts of the country. He further highlighted that this initiative is a commendable step in eliminating garbage heaps in Varanasi and advancing the Swachh Bharat Mission. The green coal produced at this plant is already being utilized by NTPC for power generation.

NORTHERN RAILWAY
